

JRS Expert Reviewer Panel

The Justification Review Standard: AI-Assisted Records Validation Pilot.

Prepared for: Alexandria Davis (Toronto, Canada)

Proposed role: Expert reviewer (your independent professional judgment)

A note on the invitation: it would be a privilege to have your expertise on the panel. What the pilot needs is your independent, experienced judgment on a set of records, applying the JRS review to each.

Everything is done at one link. About an hour total, and you can stop and resume:

www.jrsstandard.com/ai-records-pilot.html?code=V-AI-31

PURPOSE

The Justification Review Standard (JRS) evaluates whether an AI-assisted record can be reconstructed and defended from the record alone. This pilot gathers the independent reads of an expert panel, applying JRS to a balanced set of constructed records, to test how reliably experienced reviewers agree and how those reads compare with a verified reference.

WHAT YOU WILL DO (ALL ONLINE)

1. Open your personalized link. Your reviewer code is already filled in, so there is nothing to set up.
2. You will see 24 short, constructed records.
3. For each, give your JRS read: can a later reviewer reconstruct how the conclusion was reached from the record itself? Ready, Needs work, or Gap, and whether you would rely on it in a high-stakes, accountable decision. A short codebook is linked on the page for reference.
4. Click Submit. Your work saves automatically, so you can do a few at a time and come back.

SCOPE AND TIMELINE

- 24 records in total. About one hour of work, at your own pace, with your place saved as you go.
- Completing the full set by July 31, 2026 is ideal.

HOW YOUR INPUT IS CAPTURED AND USED

Your per-record reads are recorded exactly as you give them and used, in aggregate, for the pilot's pre-registered reliability and accuracy analysis and any resulting write-up. Constructed, de-identified records only. Nothing internal, confidential, or tied to your firm or clients is involved. You take part in a personal capacity, without cost or compensation.

RECOGNITION, AND WHAT IT IS NOT

- Named as a reviewer on the international expert panel, with your consent and your approval of the exact public wording before it appears.
- A certificate of completion, and a written recommendation on request.
- Acknowledgment reflects participation only. It is not an endorsement or validation of JRS. Any endorsement is entirely your own decision, on your own timeline, and is never assumed or implied by your taking part.
- You may withdraw your name before publication.
